# INTRODUCTION TO AUSTRIA

Non Internet Users  
5.8%

- Total population in January 2023 - 8.95 million
- The median age is 43.1 years
- Austria ranks 97th in the world in terms of population
- The Austrian economy is deemed to be one of the most stable in Europe
- The population also enjoys one of the highest GDPs per capita in Europe

# WHAT LANGUAGE IS SPOKEN IN AUSTRIA?

The official language of Austria is German

However, it is a variety of Standard High German which features its own peculiarities such as differences in vocab, spelling and grammar

Austrian German is used throughout the country such as in the media and in workplaces

Most major platforms and companies don't specifically localise their content for Austria, opting to address the larger German-speaking DACH market (Germany, Austria and Switzerland)

However, specific localisation can have its benefits such as building trust and relatability with Austrian users, as you are showing cultural sensitivity

# REASONS YOU SHOULD CONSIDER MARKETING IN AUSTRIA

- ✓ Austria is considered a good central point within Europe for distribution. It borders 8 different countries, so there is a lot of potential for future expansion within a close proximity
- ✓ It is ranked 9th among 57 industrial countries for its economic stability
- ✓ The high internet penetration rate means that a large percentage of the total population can be reached through digital channels

# KEY MARKETING DATES IN AUSTRIA

Here are some important dates that you can make use of when marketing in Austria, especially if you're creating a content strategy. Additionally take a look at our marketing calendar for more international dates and holidays.

# CONCLUSIONS

- The combination of a central European location, a strong economy and a high internet penetration rate makes Austria a great target for business expansion through digital channels
- Internet traffic is quite evenly split between mobile and desktop so it is important to make sure your website is also mobile friendly
- Google remains the largest search engine; however, Bing holds almost 6% of the market share so it could also be an option for your marketing strategy such as using Microsoft Ads
- Localising your content into German is necessary; however, for extra cultural sensitivity localising for the Austrian German variety can help build trust with users
- Video content is a popular format in addition to how to guides, product explainers and messages of your brand story
- When analysing your site traffic consider that 54% of users are declining cookies.
- If you're considering PPC or other online advertising, be aware that a digital advertising tax of 5% exists in Austria. This only applies to companies earning 750 million euros in annual global revenue, of which at least 25 million euros derives from online advertising in Austria
